

ANGELA MORGAN

Angela Morgan's work celebrates humanity through the use of colour, pattern and line.

Her human figures express the poses of life; the jubilation of dance, the contemplation of parenthood, and the melancholy of summer's end. Colours fuse and meld to achieve gesture; transforming abstract images into living moments.

As Angela's work is original and one of a kind, no prints are available.

Biography

Angela Morgan (née Harlton) lives and works in Fernie, B.C.

The completion of her Bachelor in fine arts degree (BFA) in April of 2000 ended a ten year stretch of university education. Angela attended Bismarck State College in North Dakota, Concordia University in Montreal, University of Regina, and finally the University of Calgary.

Angela is represented in galleries across Canada, Switzerland and Ireland.
